

Geography Revision Planner

Revision quiz every Friday on the weekly focus

w/b	Day	Weekly Focus	Daily Revision
02-Feb	Fri Sat Sun Mon Tues Wed Thurs	Urban Change Paper 2 Sustainable Urban Living Paper 2 NIC city - Rio Paper 2	Global pattern of population and megacities Trends of urbanisation in HICs and LICs Factors effecting the rate of urbanisation Environmental - recycling, green space, energy, water Social - health, education, transport Location and importance of the city Causes of growth
09-Feb	Fri Sat Sun Mon Tues Wed Thurs	 UK city - Sheffield Paper 2	Opportunities in Rio with e.g.s - social and economic Challenges - social - health, education, water, crime Challenges - environmental - waste, pollution, traffic Improvements to favelas - Favela Bairro Project Location and importance of the city Causes of migration and growth Opportunities in Sheffield with e.g.s - social and eco
16-Feb	Fri Sat Sun Mon Tues Wed Thurs	 Uneven Development Paper 2	Urban challenges - social - housing, health, deprivation Urban challenges - economic Urban challenges - environmental - dereliction, waster Brown and green field sites Urban regeneration - Park Hill Project Different ways of classifying parts of the world Ways to measure development - social and eco, and limitations
23-Feb	Fri Sat Sun Mon Tues Wed Thurs		DTM and levels of development Causes of uneven development-physical, historical, economic Consequences of uneven development-wealth, health, migration Strategies for reducing dev gap - investment, ind dev., tourism Strategies for reducing dev gap - aid, fairtrade, debt relief Strategies fro reducing dev gap - microfin, loans and inter. Tech Jamaica - opportunitites, reducing the dev gap
02-Mar	Fri Sat Sun Mon Tues Wed Thurs	NIC country - Nigeria Paper 2 UK Industry	Location and importance of the city, context of city Changing industrial structure, political & trading relationships Role of TNCs - advantage's and disadvantage's Aid- how has aid made a different to Nigeria Environmental impacts - oil Effects of economic development on quality of life eg HDI Reasons for deindustrialisation, globalisation, gov, policies
09-Mar	Fri Sat	Paper 2	Development of info tech, services, financial research. Dev of science and business parks eg Cambridge or M4

	Sun Mon Tues Wed Thurs		Sustainable science parks - Quorum Business Park, Newcastle Uneven dev in Outer Hebrides and Cambridge Improvements in road, rail, ports and airports with e.g's Narrowing north/south divide - strategies Links to EU and Commonwealth-trade, culture, transport
16-Mar	Fri Sat Sun Mon Tues Wed Thurs	Resource Management Paper 2	Overview of global inequalities of resources-supply and demand Food - demand for high value from LICs, seasonal, organic Increase in carbon footprint, food miles, local food, agribusiness Water - Reasons for increasing demand, quality and management Supply and demand, water transfer schemes eg Kielder Energy - Uk energy mix, fossil fuels and renewables Eco and environmental issues - pollution, fracking
23-Mar	Fri Sat Sun Mon Tues Wed Thurs	Water Management Paper 2	World areas of surplus and deficit - global patterns of water Reasons for water consumption - eco dev and population Reasons for water availability eg climate, geology, pollution Impacts of water insecurity - disease, pollu, conflict, food prod. Strategies to increase water supply LIC Local water scheme - Rajasthan LIC Lesotho Highland Water Project
30-Mar	Fri Sat Sun Mon Tues Wed Thurs	Tectonic Hazards Paper 1	What are natural hazards, what affects risk What effects the risk of a natural hazard Plate tectonic theory Distribution of volcanoes and earthquakes LIC Nepal earthquake HIC L'Aquila earthquake Why do people live in risk areas, monitoring and PPPs
06-Apr	Fri Sat Sun Mon Tues Wed Thurs	Weather Hazards Paper 1	Global atmospheric circulation model Distribution of hurricanes Features and formation of hurricanes How does climate change affect the intensity and frequency LIC Cyclone Nargis - effects LIC Cyclone Nargis - responses Monitoring and PPPs of hurricanes
13-Apr	Fri Sat Sun Mon Tues Wed Thurs	Climate Change Paper 1 Weather in the UK Paper 1	Evidence for climate change Causes of climate change - natural and human Effects of climate change on people and environment Mitigation and adaptation Types of UK weather hazard, evidence for being more extreme Boscastle - causes and impacts - social, economic & environ Boscastle - management
20-Apr	Fri Sat Sun	Ecosystems Paper 1	Ecosystems- factors - abiotic and biotic of pond ecosystem Food chains and webs Factors changing ecosystems

	Mon Tues Wed Thurs	Tropical Rainforests Paper 1	Nutrient cycling Characteristics of climate and vegetation layers Adaptation of plants and animals Uses of the rainforest
27-Apr	Fri Sat Sun Mon Tues Wed Thurs	Hot Deserts Paper 1 Rivers	Destruction of the rainforest Sustainable management - Malaysia Characteristics of climate, vegetation and soil Adpation of plants and animals Opportunities in the desert Challenges in the desert eg Thar Desert Changes in the long and cross profile, processes
04-May	Fri Sat Sun Mon Tues Wed Thurs	Paper 1	Features of a drainage basin Erosional landforms - waterfalls, spurs, gorges, meanders Depositional landforms-ox bow lakes, levees, estuaries, plains Landforms on the River Tees Causes of flooding, hydrographs Hard and soft defences River Ouse (York) - flood defence strategies
11-May	Fri Sat Sun Mon Tues Wed Thurs	Coasts Paper 1	Wave, and erosion types, mass movement and weathering Erosional landforms - crack to a wave cut platform Erosional landforms - headlands & bays, cliffs Depositional landforms - beaches, spits, bars and estuaries Holderness Coast - why is it eroding, defences Defences - hard and soft, pro's and con's Holderness Coast - conflicts between people with e.g.'s
22-May	Tues	Paper 1 exam	Challenges in the Physical Environment
05-Jun	Tues	Paper 2 exam	Challenges in the Human Environment
11-Jun	Mon	Paper 3 exam	Geographical Applications
